BEFORE THE NORTH CAROLINA BOARD OF PHARMACY

In the Matter of: 

HAROLD B. KING 

(License No. 6905) 

CONSENT ORDER

THIS MATTER came on to be considered at a prehearing conference (hereinafter, “Conference”) before a member of the North Carolina Board of Pharmacy (hereinafter, “Board”) pursuant to 21 N.C.A.C. 46 .2008. This Conference was scheduled for January 5, 2016 and, after appropriate notice, was heard on that day by Board Member Robert A. Graves at the office of the Board. Respondent Harold B. King (hereinafter “Respondent” or “King”) was present. Counsel Clinton R. Pinyan represented the Board. Members of the Board’s investigative staff and related respondents were also present at the Conference.

Respondent has agreed to waive a formal hearing in the above-referenced matter. Both parties stipulate and agree to the findings of fact and conclusions of law recited herein and to the order of discipline imposed. Respondent also stipulates that he waives his right to appeal this Consent Order or challenge in any way the sufficiency of the findings of this Order by his consent. Based upon the consent of the parties, the Board hereby enters the following:

FINDINGS OF FACT

1. The North Carolina Board of Pharmacy is a body duly organized under the laws of North Carolina and is the proper body for this proceeding under the authority granted it in Chapter 90 of the General Statutes of North Carolina, and the rules and regulations promulgated thereunder.
2. Respondent Harold B. King is, and was at all relevant times referred to herein, the holder of License No. 6905. At all relevant times up to July 24, 2015, King was the pharmacist-manager of Medisave Inc. d/b/a King’s Pharmacy and Compounding Lab, located at 2231 South College Road, Wilmington, North Carolina (Permit No. 5304). King is, and was at all relevant times, subject to the rules and regulations of the North Carolina Board of Pharmacy and the laws of the State of North Carolina.

3. In February, May and August 2014, King declined to fill prescriptions for 90-day supplies of trazodone 100 mg for a patient, instead filling only 30-day supplies. King incorrectly represented to the patient that the Pharmacy was not permitted by the insurer to fill 90-day prescriptions. Instead, it was the Pharmacy’s policy not to fill prescriptions for longer than a 30-day period, so that it could instead receive multiple co-pays in order to increase profits (or, in some cases, reduce losses) on its dispensing. King testified that he often varied from this policy if patients complained, however he did not do so with respect to this patient. During the investigation of this complaint, King cooperated with the Board investigator and disclosed both his representations to the patient, as well as the true state of affairs.

4. Between June 2014 and April 2015, on at least nine (9) occasions, King engaged in wholesale shipments into the states of Arizona, Arkansas, Kentucky, New Jersey, Texas and Virginia, without the Pharmacy having the required non-resident permits. In addition, King shipped some of these drugs in opened, partial packages, which was not permitted by some or all of these states. King made these shipments by using services provided by MatchRx to pair interested buying and selling pharmacies for overstocked prescription drugs. Similar services are provided by other companies, including RxCherryPick, RxTrade and ExchangeMeds. In using the MatchRx service, King relied upon representations that the Pharmacy could lawfully ship to
other states using the service. King acknowledged that he should have researched permitting requirements in other states before shipping there, rather than relying upon MatchRx’s representations. Although the Board finds that it was not reasonable for King to rely on the representations of a third-party with a profit motive to cause the Pharmacy to use the service, rather than researching legal requirements on his own, the Board finds that King acted in good faith in his reliance.

5. On April 16, 2015, the Arizona Board of Pharmacy sent a cease and desist letter to the Pharmacy, requesting that the Pharmacy cease shipments into Arizona without a permit. The Arizona Board of Pharmacy sent similar letters to a number of other North Carolina pharmacies. The other states into which King had shipped (Arkansas, Kentucky, New Jersey, Texas and Virginia) had similar permitting requirements with which the Pharmacy had not complied. Upon receipt of this letter, King immediately stopped using the MatchRx service and fully cooperated with the Board’s investigation of MatchRx shipments.

6. Although King cooperated completely with the Board’s investigation of its shipments through MatchRx, the Board is unable to accurately find the full scope of shipments made to other states because MatchRx refused to cooperate fully with the Board’s investigation.

7. When an inspection was conducted on April 16, 2015, King was engaged in the following acts:

a. King, on occasion, failed to maintain the required documentation of photo identification presented by all of the individuals seeking the dispensation of schedule II and III controlled substances;

b. King failed to keep a compounding log containing all information required to be documented;
c. King failed to comply with required compounding standards, including but not limited to, proper beyond use dating, master formulation records, garbing, facility design, installing a powder containment hood and quality controls; and

d. King was unlawfully compounding for office use on occasion, rather than only compounding patient-specific drugs pursuant to valid prescriptions.

8. The Board has received no evidence of any contamination in the Pharmacy’s compounded products or injury to any patient. No patient or prescriber has complained to the Board or otherwise reported any issues with any of the Pharmacy’s compounded products.

9. Since the inspection, King and his successor pharmacist-manager have cooperated with the Board’s efforts to ensure compliance with all applicable laws governing compounding and documentation. Between April 2015 and the present, inspections showed that the Pharmacy has come into substantial compliance with respect to the previously identified violations.

10. As an aggravating factor in this case, the Board has considered prior letters of warning to King on April 7, 2006 and February 16, 2011, which addressed previous violations of the Pharmacy Practice Act and its regulations.

11. As substantial mitigating factors in this case, the Board has considered King’s cooperation with the investigation, his immediate compliance with his obligations not to ship without wholesale permits (once he was alerted to those requirements), and his efforts to promptly remedy compounding and documentation deficiencies. In addition, the Pharmacy has changed pharmacist-managers since the events in question, and the new pharmacist-manager
(who is personally responsible for ongoing legal compliance by the Pharmacy) has assured future compliance with respect to the issues raised during these investigations.

CONCLUSIONS OF LAW

1. All parties are properly before the Board, and the Board has jurisdiction over Respondent and the subject matter of this proceeding.

3. Respondent admits that the conduct in this matter constitutes sufficient grounds for disciplinary action on his license under North Carolina General Statutes § 90-85.38(a).

CONCLUSIONS REGARDING DISCIPLINE

Based upon the foregoing Findings of Fact and Conclusions of Law, and with the consent of the Respondent, IT IS THEREFORE ORDERED that:
1. The license of Respondent Harold B. King (License No. 6905) is hereby REPRIMANDED; and

2. The license of Respondent King is further restricted in that he consents that he shall not hereinafter serve as pharmacist-manager of any pharmacy, and it is so ordered.

This the 16th day of February, 2016.
