

Vice President Andy Bowman called the meeting to order at 10 am with Board Members Ashley Duggins, Chris Sain, Keith Vance, and Mischelle Corbin in attendance. Board President Wallace Nelson was absent at the beginning of the meeting due to a previous commitment, but joined shortly after the meeting convened.

Also in attendance were Executive Director Jay Campbell, Board Counsel Clint Pinyan, Associate Executive Director Ellen Vick, Director of Investigations Loretta Wiesner, Director of Inspections Krystal Stefanyk, Director of Operations Kristin Moore, Information Technology Administrator Antoine Pryor, Director of Finance & HR Rhonda Jones, Accounting Manager JP Brown, Board Investigator Lindsey Frederick, Enforcement Specialist Joshua Kohler, Enforcement Specialist Cindy Parham, Administrative Assistant Leslie Wilson, and Director of Licensing Missy Betz.

Present as visitors were Erica Harms, Andrew Froy, Dr. Amanda Fuller Moore, Joe Jordan, Cindy Clark, Kristy Carter, Alicia Palombo, Morgan Williams, Shantavia Edmonds and Hannah Newkirk. Members of the public also attended the meeting via teleconference.

Ethics Statement & Welcome

Vice President Bowman read the Ethics Statement regarding conflicts of interest. No conflicts were noted by Board members.

Consideration of May 2022 Meeting Minutes

Dr. Vance moved, and Ms. Corbin seconded, to approve the minutes. The motion passed with no dissenting votes.

Request from State Health Director to Approve Public Health Department RN Dispensing Formulary (Amanda Fuller Moore, NC DHHSI)

Mr. Campbell reminded the Board that at its March 2022 meeting, the Board voted to publish for notice and comment a proposed repeal of 21 NCAC 46.2403, which sets forth the drugs and devices approved by the Board as a formulary for registered nurse dispensing in a public health department. G.S. 90-85.34 broadly governs the conditions under which a registered nurse at a local health department may dispense drugs.

Amanda Fuller Moore of the NC DHHS Division of Public Health requested at the March meeting that the Board consider repealing Rule .2403. The statute does not require the Board's approval of a proposed RN dispensing formulary to occur by rulemaking. Instead, the Board may, as the statute contemplates, consider DHHS requests to alter the formulary as an action item at a Board meeting, and may maintain the formulary on the Board's website. This method of formulary management may be more efficient and flexible.

The Board published the proposed repeal for notice and comment. The Board held a public hearing on the Rule on June 20, 2022. Board staff received no written comments on the proposed repeal, and no member of the public spoke to the proposed repeal at the public hearing. The repeal is, therefore, ready for Board action. Staff recommends approving the repeal.

To ensure that there is no gap in the formulary authorization when the repeal becomes effective (anticipated October 1, 2022), State Health Director Betsey Tilson and DHHS Assistant Secretary for Public Health Susan Kansagra have requested approval of a public health nurse RN dispensing formulary. Items 1-8 of the proposed formulary are those presently included in Rule .2403. Items 9 (folic acid for prevention of neural tube defects and related condition) and 10 (low-dose aspirin for prevention or delayed onset of preeclampsia in pregnant individuals with increased risk of preeclampsia) are new.

As there were no questions from the Board for Dr. Moore, Dr. Vance moved to repeal 21 NCAC 46.2403. Dr. Duggins seconded. The motion passed unanimously.

Dr. Sain then moved to approve the public health nurse RN dispensing formulary as submitted by Dr. Tilson. Dr. Duggins seconded and the motion passed unanimously.

Vice President Bowman then elected to bypass the next two agenda items (Modification of Summary Suspension Order and Committee Appointments) and revisit them upon the return of President Nelson.

Financial Report

Monthly Financial Report (*Brown*)

The members received the monthly financial report prior to this meeting. The members reviewed and had no questions.

Mr. Brown reminded the Board the state auditors would arrive the last week of August. Mr. Campbell said that in the likely event the audit is not ready to be presented at the September meeting, the Board could do what it did last year and have the Budget and Finance Committee approve it in time to file with the Annual Report, which is due by October 31st.

Investigative Report

Krystal Stefanyk, Director of Inspections, presented the investigations report and current caseload. She then introduced Lindsey Frederick, the newest Inspector/Investigator, replacing Sacejewia White who is entering law school.

Licensing Update

Missy Betz, Director of Licensing, demonstrated the new pharmacy intern registration which will be implemented on August 1st. She updated the Board on the launch of the NABP Verify credential service, of which she approved over 4000 applications. Lastly, Ms. Betz presented the process by which pharmacies could register their RMOE arrangements

President Wallace joined the meeting at 10:48 am. The Board then took a ten-minute break.

Request for Modification of Summary Suspension Order (*Morgan Williams, Pharmacist Inactive License #10628*)

Mr. Morgan Williams is petitioning the Board to modify the terms of his July 19, 2011 suspension order to make him eligible to apply for registration as a pharmacy technician. Mr. Pinyan asked that the Board consider his long history of substance abuse and violations of the Pharmacy Practice Act and its regulations, and the laws governing the distribution of drugs. He maintained that these grounds for denial of his request are evidenced by and outlined in Mr. Williams' August 28, 1996 conviction for obtaining controlled substance by fraud in Richmond County Superior Court (No. 96 CRS 6579); the March 19, 1997 summary suspension of his pharmacist license by the Board; the May 9, 1997 order continuing his summary suspension; the April 22, 1998 order denying reinstatement of his pharmacist license; the October 23, 1998 order reinstating his pharmacy license with conditions; the July 19, 2011 summary suspension of his pharmacist license; the record of his December 11, 2019, hearing before the North Carolina Real Estate Commission; and the January 23, 2020 denial of his application for a real estate broker license.

Mr. Williams elicited direct testimony from Joe Jordan, Director of the North Carolina Health Professionals Program. Mr. Pinyan called Executive Director Jay Campbell to testify.

After closing arguments from both parties, Dr. Bowman moved for a closed session to deliberate. Dr. Vance seconded. The motion passed unanimously.

Upon the Board's return, Ms. Corbin moved, and Dr. Bowman seconded, for open session. The motion passed unanimously.

President Nelson issued the Board's decision to deny Mr. William's request. A written order will follow.

The Board then adjourned for lunch and reconvened at 1pm.

Legislative Report (*Pinyan, Campbell*)

S.345 – Physician Assistant Practice. Versions of this bill have passed the Senate (May 2, 2022) and the House (June 29, 2022). The House version has been sent to the Senate Rules

Committee. Noteworthy is that this House version bill makes changes to physician assistant dispensing authority. It provides that physician assistants could compound and dispense drugs under the supervision of a “licensed physician” (presently under supervision of a licensed pharmacist), and must “compl[y] with all the applicable State and federal laws and rules governing compounding and dispensing” (presently “Rules and regulations of the North Carolina Board of Pharmacy governing this function are complied with”). Its present form is confusing. The House version passed that chamber unanimously, but has not re-emerged from Senate Rules Committee.

S.885. Pharmacist Reimbursement/Test/Treat. Among other things, this bill would authorize a pharmacist to order and perform CLIA-waived tests and use the results of those tests to treat influenza, strep throat, and other health conditions screened by the CLIA test in accordance with rules and protocols adopted by the Board of Pharmacy in consultation with the State Health Director. Senator Burgin is the primary sponsor, and the bill was filed on May 27 and referred to Senate Rules Committee. Mr. Campbell believes it to be an NCAP advocacy priority. It seems unlikely that this bill will get attention during the remainder of the short session, but may well be the subject to reintroduction in the 2023 long session.

Review of Annual CSRS Report (Campbell)

The STOP Act requires the North Carolina Department of Health and Human Services to file an annual report to various occupational licensing boards, including the Board of Pharmacy, on data reported to the Controlled Substances Reporting System (“CSRS”). Mr. Campbell noted the report indicates an overall decline in the total number of controlled substances dispensed as compared to 2020, most noticeably in Schedule IV controlled substances. Schedule 2 controlled substances account for 46% of all dispensing (opioids primarily), with Schedule IV controlled substances close behind (benzodiazepines primarily).

Rulemaking (Pinyan, Campbell)

The following rulemaking proposals are ready for action by the Board:

Repeal of 21 NCAC 46.2403, Drugs and Devices to be Dispensed

This was covered earlier with Dr. Moore and the request from State Health Director to approve public health department RN dispensing formulary and was approved earlier in the meeting.

Amendment to 21 NCAC 46.1317, Definitions (ACPE)

Mr. Campbell recalled that this amendment clarifies the definition of “approved school or college of pharmacy” to avoid any confusion engendered by ACPE’s recent decision to issue a form of accreditation to foreign schools of pharmacy. Board staff received no comments on the amendment, either in writing or during the June 20, 2022 public hearing. Dr. Bowman moved to adopt repeal and amendments as published. The motion was seconded by Dr. Vance. The vote was unanimous.

The following rulemakings are in progress: None

The following rulemakings are completed:

Adoption of 21 NCAC 46.1820, Code of Ethics

Amendments to 21 NCAC 46.2507, Administration of Vaccines

Permanent Rule 21 NCAC 46.2514, Administration of Long-Acting Injectables

These rulemakings, approved by the Board at its May 2022 meeting, have completed RRC review and have become effective.

Committee Progress Reports

Telepharmacy Committee – *Vance, Bowman, Nelson (members); Campbell, Pinyan (staff).*

Committee working on review and recommendations concerning direct-to-patient dispensing technologies. The Committee met during Board's June 20 workday to receive presentations. The Committee is preparing to make specific recommendations to the Board, and recommends this be a discussion item at the annual retreat.

Permit Meeting/Pharmacist Manager Education Committee – *Duggins, Vance (members); Betz, Watson, Kohler, Stefanyk (staff).* Implementation underway and nearly complete.

Intern Registration System Committee – *Vance, Bowman (members); Betz, Campbell, Pinyan (staff).* Ms. Betz presented the intern registration system to the Board earlier in the agenda.

Working Conditions Committee – *Duggins (chair), Bowman, Vance (members); Campbell, Vick, Pinyan (staff).* Committee met on June 21 to continue discussion of potential actions and recommends this be a discussion item at the annual retreat. Working conditions-specific complaint form is now integrated into the Licensure Gateway.

Annual Board Member Retreat

The Board agreed to hold a retreat November 13 through November 15, which would be in place of regular Board meeting. Proximity (Greensboro) and Renaissance (Asheville) are available for these dates. A few more places were suggested. Ms. Wilson will contact them and let the Board know the results. Mr. Campbell asked the Board to email any topics or issues that they would like discussed at the retreat.

Committee Appointments (President Nelson)

Budget and Finance (standing). (currently composed of members Duggins, Corbin, and Nelson) Responsible for reviewing and recommending to the full Board a fiscal year budget. Responsible for overseeing the Board's investment policy. President Wallace agreed to leave members as is.

DME Committee (standing). The DME Committee is composed of two Board members (currently past-member Mixon, Corbin); a representative of medical equipment suppliers (currently Kimberly Lynn); a representative of medical oxygen suppliers (currently Wade Dahlberg); a representative of rehabilitation technology suppliers (currently Ed Dressen). All DME representatives have expressed a desire to remain on the DME committee. Dr. Sain agreed to replace Mr. Mixon.

Telepharmacy Committee (currently composed of members Vance, Bowman, and Nelson) The committee has completed its work on remote medication order processing expansion and revision. The committee is currently focused on issues surrounding direct-to-patient automated dispensing technology. The Board agreed to let the committee to remain as is.

Opioid Crisis Committee (currently composed of members Duggins, Vance, and Bowman) This committee developed the Stan Haywood Recovery Fund, the opioid public service announcement campaign, and cooperative projects with the More Powerful NC campaign. Given the COVID crisis, the committee has been in stasis over the past year. There are no specific projects in the works. The Board agreed to inactivate this committee and recompose it as necessary at a future date.

Haywood Fund Committee (currently Bowman, Mixon, Corbin) In March 2021 – the committee recommending changes to the Fund Agreement increasing the Principal Contribution to \$1.25MM (from \$1MM) and to the pharmacy technician eligibility criteria specified in Attachment A to the Grant Agreement. The committee acts as a liaison with NCPHP on Haywood Fund matters. Dr. Sain agreed to replace Mr. Mixon.

Limited Service Permit Revision Committee (currently past member Mixon, Nelson) The LSP Revision Committee completed its work in 2021. The Board agreed to inactivate it.

Permit Meeting/Pharmacist Manager Education Committee (currently Duggins, Vance) Charged to recommend amendments to Board Rule .1606 to eliminate in-person permit meeting requirement; consider development of on-line educational materials focused on pharmacist manager responsibilities; consider whether and how review of such materials should be a mandatory prerequisite for issuance of a new permit and/or a pharmacist-manager change for an existing permit. The Board has completed its rulemaking on this topic, and the committee is in the final stages of implementing the new educational requirements. Board agreed to maintain current committee membership to finish out the project.

Intern Registration System Committee (currently Vance, Bowman) Charged to recommend to the full Board a system for registering and tracking pharmacy students who are eligible to serve as pharmacy interns in North Carolina. Rulemaking has been completed. Board staff are deep into the implementation stage. The Board agreed to maintain current committee membership to finish out the project.

Long-Acting Injectable Committee (currently Duggins, Bowman). The Board has concluded permanent rulemaking. The Board agreed to inactivate this committee.

Working Conditions Committee (currently Duggins, Bowman, Vance). Charged with gathering information and making recommendations on community pharmacy working conditions challenges. Committee has completed a survey of NC pharmacists on these issues and is working on policy, rulemaking, and legislative recommendations. It was decided to keep this committee intact, at least until the retreat.

Individual Appointments

Traditionally, the newly selected President appoints individual Board representatives to various responsibilities. Currently, those are:

NCPHP Board of Directors. The Board of Pharmacy designates two members of the NCPHP Board of Directors (currently Bowman and Corbin). The Board is not required to appoint current BOP members to the NCPHP board. Dr. Bowman and Ms. Corbin agreed to stay on committee.

CPP Advisory Committee Liaison. The Board uses a CPP Advisory Committee (composed of five currently practicing CPPs in various practice settings) to review incoming CPP applications and make a recommendation to the Board whether the applications should be approved. The CPP Advisory Committee occasionally assists Board staff on guidance documents, and offers suggestions to improve the CPP application process. One Board member is designated the CPPAC Liaison (currently Mixon, Nelson shadowing). That Board member is responsible for reviewing the application recommendations of the CPPAC each month, and has been delegated authority by the full Board to approve CPP applications. Mr. Nelson agreed to remain as CPPAC liaison.

Possible Reschedule of September 20 Board Meeting to September 13

Dr. Bowman has noted that the annual MALTAGON meeting falls September 18-22 and asked whether the September 20 meeting should be moved to avoid the conflict. The Board agreed to move the September meeting to September 13.

Review of NABP Annual Meeting, May 19-21, 2022, Phoenix AZ

Mr. Campbell informed the Board that the task committees had not been finalized yet. Interested Board members should know something in the next few weeks.

District 3 Meeting, August 7-10, 2022, Flowood, MS

Any questions should be directed to Cindy Parham, the Secretary of NABP District 3.

MALTAGON Meeting, September 18-21, 2022, New Orleans, LA

Registration is now open. Board members should contact Cindy Parham or Leslie Wilson.

On a motion from Dr. Vance, seconded by Dr. Bowman, passed unanimously, the Board moved into closed session to discuss possible summary suspensions.

When open session resumed on a motion from Ms. Corbin, seconded by Dr. Duggins with no dissenting votes, President Nelson stated that the Board summarily suspended Technician Registration No. 41479 issued to Veronica Bonet. President Nelson read aloud a card from Bill Mixon thanking the Board for his farewell dinner celebrating his years of service at the Board.

Ms. Corbin moved to adjourn. Dr. Bowman seconded. The motion passed with no dissenting votes.

Wallace Nelson, President

Dr. Andy Bowman

Mischelle Corbin

Dr. Ashley Duggins

Dr. Chris Sain

Dr. Keith Vance
